

Press release

Dinteloord September 3, 2020

JMT Rental furniture, JMT Floorcoverings and Hapéco are making a new start!

IMA Beheermij and John van de Merbel make it possible that the above companies are making a solid restart as of today. The day-to-day management of the companies will be in safe hands with Jean-Pierre Brouwers, Ronald Roctus and Marc van de Merbel. This combination - with on the one hand a wealthy visionary organization supplemented with many years of experience of the founder and on the other hand the well-known management - assures you of the trusted service and high quality that were the cornerstones of JMT/ Hapéco.

The shares of JMT Exposervice Bvba in Belgium have also been taken over, which also guarantees the continuity of JMT in Belgium.

For the branches in Germany, France and Spain, it is currently still being investigated whether they can also be started up under the new situation, so that the international network can be continued.

In the meantime, the activities of Hapéco will be integrated under the JMT Nederland label. As a result, the service and product range will achieve greater efficiency.

We hope that all customers and suppliers will appreciate our return to service in this way and thank them for the patience shown over the past months. We will do our utmost to convert the trust placed in us into a successful joint future!

About the new shareholders:

IMa Beheerermij is a strong investor in various sectors including rental, sales and catering companies. IMa Beheerermij has a lot of experience in the European rental market of light and sound equipment under the Rentall label.

John van de Merbel has always been the great inspiration as founder of JMT.
